

LIMBERT ARANDIA TORRICO

Senior Product Owner | Fintech & Payments | Technical Product Manager

Email: limbert.arandia@gmail.com

Linkedin: <https://www.linkedin.com/in/limbert-arandia-torrico/>

PROFESSIONAL SUMMARY

Product Owner and Systems Engineer with 15 years across product, QA, and software architecture, now driving strategy for a cloud-native payment gateway on Google Cloud. I turn complex, PCI-DSS-sensitive payment flows into shippable roadmaps, aligning business stakeholders with Java/Spring Boot and Node.js engineering teams. Proven at building QA and automation practices from scratch, leading Agile teams, and delivering secure fintech features that reach production. Fluent in the language of both business and engineering.

CORE COMPETENCIES

Product: Product Ownership • Product Strategy & Roadmapping • Backlog Management • User Stories & Gherkin Acceptance Criteria • Stakeholder Management • Agile / Scrum • Prioritization

Domain: Fintech • Payment Gateways • QR / Card / Wallet / Pix / Cash-on-Delivery • Payment Processor Integration • Settlements & Reconciliation • PCI-DSS • Secure API Integration

Technical: REST APIs • Microservices • Google Cloud Platform (GCP) • OAuth 2.0 / JWT • CI/CD • QA Strategy • Test Automation

Tools: Jira • Confluence • TestRail • Zephyr • Xray • Postman • SoapUI • JMeter • Playwright • Cypress • Selenium • Appium • Docker • Kubernetes • Jenkins • GitHub Actions

PROFESSIONAL EXPERIENCE

DATEC LATAM

May 2025 – August 2026

Product Owner — Payment Gateway Platform (Fintech)

- Own the product vision, roadmap, and backlog for a cloud-native payment gateway on GCP serving ~20 merchants in a high-volume transactional environment, coordinating a cross-functional team of 10 engineers and QA specialists.
- Translate complex QR, card, and wallet payment flows into development-ready user stories with Gherkin acceptance criteria across Java/Spring Boot and Node.js teams.
- Led expansion of the payment-method portfolio — enabling Pix, digital wallet, card, QR, and cash-on-delivery — broadening merchant reach and customer conversion.
- Drove onboarding of new merchants and integration of third-party payment processors, expanding the platform's acceptance network.
- Led the design of a payment-confirmation notification microservice integrated into the live QR and card callback flow, improving transaction transparency for merchants and customers.
- Defined a settlement and reconciliation solution with end-of-day batch processing feeding into SAP, streamlining financial close; drove backoffice UX improvements that surface failed-transaction reasons and cut support resolution time.

DATEC LATAM

May 2024 – April 2025

Technical Lead & Head of QA

- Built and led a **10-person QA team from the ground up**, establishing Agile testing standards and an incident-management process across the product organization.
- Architected a test automation framework (Playwright, Appium, GitHub Actions) that **cut regression cycle time by 50%** and reduced production defects, improving release stability.
- Implemented KPI dashboards and service-quality metrics that gave leadership real-time visibility into delivery and defect trends.

TIGO BOLIVIA (Telecel S.A.) *May 2016 – Feb 2024*

Digital Architect & QA Specialist

- Designed software integration architectures and led QA across the digital-projects portfolio, including the company’s public website and mobile application.
- Implemented a Cypress automation framework that **cut testing time by 60%** and accelerated delivery cycles.
- Managed delivery of multiple digital projects end to end, coordinating cross-functional teams and external vendors.

INTERSOFT S.A.*Feb 2015 – May 2016*

Project Manager

- Analyzed functional requirements and authored technical integration designs for API/web-service projects, validating integrations before release.

JALASOFT S.R.L.*Feb 2009 – Dec 2014*

Quality Software Engineer

- Designed and automated tests (Selenium) for microservices and server-monitoring platforms across web and mobile, substantially reducing manual testing effort.

EDUCATION

B.Sc. Systems Engineering — Universidad Mayor de San Simón *2002 – 2007*

Diploma in Software Testing — Fundación Jala *2009*

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Scrum Foundation Professional Certificate (SFPC) • DevOps Fundamentals • TM Forum Fundamentals • AI Agents for Backlog Management (n8n, Jira) — Product Latam • Enterprise Project Management (EPM)

LANGUAGES

Spanish — Native **English** — Advanced (professional working proficiency)
